Research Interests

My research lies at the intersection of econometrics and macroeconomics, with a focus on developing and applying causal inference methods to macroeconomic questions. I specialise in the potential outcomes framework, quantile regression, local projections, and difference-in-differences. My work explores topics such as growth-at-risk, firm dynamics, and public policy evaluation.

Education

PhD in Economics <i>Universitat Pompeu Fabra, Barcelona, Spain</i>	2021–present
MRes in Economics, Finance and Management <i>Universitat Pompeu Fabra, Barcelona, Spain</i>	2020–2021
